INDEX

A

N-Acetyl pyrrole, photochemical isomerization of, 203-220
Anthracene, derivatives of, decomposition of photooxide of, 255-259
Aryl benzoates, photohydrolysis of, 175-179
Alkyl ketones, γ-hydrogen abstraction of, 71-78
Anthraquinone, as photosensitizer in isomerization of stilbene and styrylpyridines, 59-70
Arnold, D. R., 293-304
Azomethine dyes, photophysical processes in, 181-191

B

Baird, N. C., 293-304
Balzani, V., 141-154
Balny, C., 255-259
Ben-Bassat, J. M., 155-167
Benzene, triplet type, olefin isomerization related to radiolytic yield of, 365-371
Benzoates, aryl, photohydrolysis of, 175-179
Benzophenone. triplet-triplet annihilation in solutions of, 307-332
Biacetyl, triplet-triplet annihilation in solutions of, 307-322
Bolton, J. R., 293-304
Brand, J. C. D., 293-304
Bundy, W. A., 129-139

C

Camphorquinone, triplet-triplet annihilation in solutions of, 307-332
Carbonyl compounds, aromatic, dual phosphorescence of, 221-229
Cargill, R. L., 123-139
Casagrande, M., 59-70
Cauzzo, G., 59-70
Cells, cylindrical sample type, use in measurement of quantum yields, 193-200
Chapelon, R., 255-259
Chemical sensitization, photoreduction of cis-1,2-dibenzoylethylene as, 155-167
Crotononitrile, self-quenching in photocycloaddition of thiobenzophenone to, 261-265
Cyclopentenones, phosphorescence spectra of, 123-139

D

Dalton, J. C., 71-78
Dawes, K., 71-78
De Groot, R. L., 1-22
de Mayo, P., 293-304
Diaryl carbonate esters, flash photochemical studies of, 35-57
cis-1,2-Dibenzoylethylene, photoreduction of as an example of chemical sensitization, 155-167
Dichloropyridineplatinum, photoisomerization of, 141-154
2,4-Diketopyrimidines, photochemistry of, 231-254
1,2-Dimethylbutyl phenylacetate (threo- and erythro-), photoelimination in, 79-87
1,4-Dimethyl-9,10-dipyridyl anthracene photooxide of, singlet oxygen role in thermal decomposition of, 255-259

1,3-Dimethylthymidine, dimerization and stacking association of, 231-254
cis-4,4′-Diphenylstilbene, emission spectroscopy of, 372-376
Dixanthylidine, photochromism in, 379-385

E

Esters, photochemistry of, 267-270
  Norrish type II process in, reversal, 271-274
Evans, T. R., 275-280
Exciplex formation, in fluorescence quenching, 99-106

F

Ferrioxalate solutions, stability of Fe(II) in, 387-394
Fischer, E., 372-377, 379-385
Fischer, G., 372-377
Flash-emission studies, of biacetyl and camphorquinone in benzene and benzophenone, 307-332
Flash photolysis, studies of, on diaryl carbonate esters, 35-57
Fluroescence quenching, exciplex formation in, 99-106
Frey, H. M., 323-333

G

Galiazzo, G., 59-70
Gano, J. E., 79-87

H

Herkstroeter, W. G., 181-191
γ-Hydrogen, abstraction from alkyl ketones, 71-78
Humphrey, J. S., Jr., 35-57
Hyatt, J. A., 267-274
Hydroxyl derivatives, triplet and radical formation on, 1-22

I

Iron [Fe(II)], stability of in ferrioxalate solutions, 387-394

J

Jacobs, P. W. M., 293-304

K

Kelly, C. A., 175-179, 349-364
Ketones, aliphatic, 1-methylnaphthalene-sensitized singlet state reactions of, 169-173
  alkyl, γ-hydrogen abstraction of, 71-78
Korenstein, R., 379-385
Kubota, K., 335-347

L

Lappin, G. R., 175-179, 349-364
Leemakers, P. A., 201
Li, Y. H., 221-229
Lim, E. C., 221-229
Lisewski, R., 231-254
Lister, D. H., 323-333
Literature, highlights from, 1969-1970
  1970 (first half), 293-304
Liu, R. S. H., 261-265
Long, M. E., 221-229

M

McDonald, R. J., 99-106
2,2′-Mercaptobenzothiazolyldisulfide, kinetics and mechanism of photolysis of, 335-347
Mesityl *p*-cyanobenzoate, photohydrolysis of, 349-364
3-Methylcyclopentanone, photolysis of, 323-333
1-Methylnaphthalene, as sensitizer of singlet state reactions of aliphatic ketones, 169-173
Moggi, L., 141-154

Morita, T., 203-220, 335-347
Muszkat, K. A., 379-385

N

Norrish type II process in photochemistry of esters, 267-270
reversal of, 271-274

O

Olefin, isomerization and radiolytic yield of triplet benzene, 365-371
Ono, S., 203-220
Ottolenghi, M., 107-122
Ownby, J. C., 175-179, 349-364

P

Pacifici, J. G., 175-179, 267-274, 349-364
3-Phenyl-5-(4′-methoxyphenyl)-2,4-oxadiazole, fluorescent quenching of, 275-280
Phosphorescence, dual, of aromatic carbonyl compounds, 221-229
spectra, of cyclopentanones, 123-139
Photochemistry, of 2,4-diketopyrimidines of esters, 267-270
inorganic, highlights from literature of 1969-1970
radiolysis comparison with, 365-371
Photochromism, in dixanthylidene and related compounds, 379-385
Photoelimination, concerted and diradical types, from dimethylbutylphenylacetate isomers, 79-87
Photo-Fires rearrangement, mechanism of, 35-57
Photohydrolysis, of aryl benzoates, 175-179
of mesityl *p*-cyanobenzoate, 349-364
Photoisomerization, of dichlorodipyridineplatinum, 141-154
Photolysis, of 2,2′-mercaptobenzothiazolyldisulfide, 335-347
Wisconsin black box use in studies of, 281-292
Photoreduction, of *cis*-1,2-dibenzoylethylene, 155-167
Piperylene, as potential serious hazard, 201
Platinum, dichlorodipyridine derivative of, photoisomerization of, 141-154
Pond, D. M., 123-139
Potashnik, R., 107-122
Pyrene-tetracyanobenzene, triplet states in charge-transfer system
Pyrrole, acetyl, photochemical isomerization of, 203-220

Q

Quantum yields complications in measurement of, 193-200
Quenching, fluorescence type, of 3-phenyl-5-(4′-methoxyphenyl)-2,4-oxadiazole, 275-280
kinetic analyses of photochemical reactions involving, 23-34
in photocycloaddition of thiobenzophenone to crotononitrile, 261-265

R

Radical, formation on flashing aromatic hydroxyl derivatives, 1-22
Radiolysis, photochemistry comparison with, 365-371
Ramamurthy, V., 261-265
Roller, R. S., 35-57
Rubin, M. B., 155-167

S

Sabbatini, N., 141-154
Saltiel, J., 123-139
Sears, A. B., 123-139
Selinger, B. K., 99-106
Shizuka, H., 203-220, 335-347
Sifain, M. M., 275-280
Stern-Volmer quenching equation, for two excited states, 23-34
Stilbene, anthraquinone-photosensitized isomerization of, 59-70

derivatives of, emission spectra of, 372-376
Styrylpyridines, anthraquinone-photosensitized isomerization of, 59-70

T

Tanaka, I., 203-220
Teitelbaum, Z., 107-122
Thiobenzophenone, self-quenching in photocycloaddition of to crotononitrile, 261-265
Triplets, formation on flashing aromatic hydroxyl derivatives,, 1-22
in pyrene-tetracyanobenzene charge-transfer system, 107-122
Triplet-triplet annihilation of solutions of biacetyl, camphorquinone, and benzophenone, 307-322
Turro, N. J., 71-78, 307-322

V

Valentine, D., Jr., 89-95
Varani, G., 141-154
Vesley, G. F., 193-200

W

Wagner, P. J., 23-24, 169-173
Wake, R. W., 275-280
Ware, W. R., 293-304
Whitten, D. G., 365-371
Wierzchowski, K. L., 231-254
Winterle, J., 123-139
Wisconsin black box, photolysis studies using, 281-292
Witz, S., 387-394
Wrighton, M., 387-394

Y

Yekta, A., 307-322

Z

Zannucci, J. S., 175-179, 349-364
Zarnegar, B. M., 365-371
Zimmerman, H. E., 281-292
